1. Customer documents referenced

- Vortex Motors Supplier Quality Manual VSQM-2024 (the customer's overarching CSR).
- Vortex Motors Part-Specific Quality Requirements for 34521-A (PSQR-34521A Rev 03).
- Vortex Motors Part-Specific Quality Requirements for 78900-C (PSQR-78900C Rev 02).

2. Compliance matrix (selected requirements)

VSQM clause	Customer requirement (summary)	Contoso compliance evidence
\$4.3	Customer approval of any control plan change before implementation.	Control plan QMS-CP-34521A-RevC §4 (review & approval).
\$5.1	Notification of any nonconformity that may have shipped within 24 h.	QMS NCR workflow; corrective-action plan per IATF §10.2.1.

§5.4	Material certifications required per production lot for safety-relevant parts.	Material spec ERP-MAT-INC718-SPEC covers Aeronova certification pattern; the 4140 supply from SUP-OHIO-STEEL provides equivalent per-lot certifications for 34521-A.
§7.2	PFMEA review on every change to control plan.	PFMEA QMS-FMEA-34521A-RevB updated 2025-07-15 in sync with control plan Rev C.

This CSR matrix flows into the controlled documents above and is cited in the IATF excerpt QMS-IATF-EXCERPT-001 §8.5.1.1 as a customer-specific override on control-plan approval authority.
